

Per your request, the following is provided to reflect the fire station staffing plan based upon the current six hub model. Hub stations are maintained at three personnel. Stations with floater positions may be dropped to two personnel if the floater is needed to fill a vacant position at another station in order to avoid incurring overtime expenditures to otherwise cover the vacant position. If the floater is not needed, the station remains staffed at three personnel.

Volusia County Fire Services' Staffing

| Station | Staffing  | Floater | HUB Station |
|---------|-----------|---------|-------------|
| 11      | 2         | 1       |             |
| 12      | 3         | 0       | X           |
| 13      | 3         | 0       | X           |
| 14      | 2         | 1       |             |
| 15      | 2         | 1       |             |
| 16      | 3 Flagler | 0       |             |
| 17      | 3 Airport | 0       | ARFF        |
| 18      | 2         | 1       |             |
| 21      | 2         | 1       |             |
| 22      | 2         | 0       |             |
| 23      | 3         | 0       | X           |
